

# P2 Alert - Design Team

Generated: 2026-02-08 00:13:06

## ■ Alert Overview

<b>Persona:</b>	Mobile User
<b>Action Taken:</b>	Attempted to tap submit button on mobile device
<b>Expectation:</b>	Button should be easily tappable on mobile screen
<b>Confusion Score:</b>	6/10
<b>Status:</b>	FAILED
<b>Severity:</b>	P2
<b>F-Score:</b>	72%
<b>Responsible Team:</b>	Design

## ■ Diagnosis

Button touch target too small (28px) - violates WCAG 2.1 minimum of 44px

## ■ Recommendations

1. Increase button min-height to 44px for WCAG 2.1 compliance
2. Add more padding (16px) around clickable elements
3. Test with mobile device emulator and real devices
4. Implement responsive button sizing for different screen sizes
5. Review all interactive elements for touch target sizes

## ■ Console Logs

- [warning] Touch target smaller than recommended 44x44px
- [info] Element dimensions: 28x32px
- [warning] WCAG 2.1 Level AAA guideline violation
