

Frontend Team - Alert Report

Generated on: 2026-02-07 23:53:58

■ Frontend Team Summary

This report contains 1 alert(s) assigned to the Frontend team. All issues require immediate attention and have been routed to your team channel.

ALERT 1: Country selector API endpoint not found

| | |
|-------------------------|----------------------------------|
| Persona: | Power User |
| Action Taken: | Clicked country dropdown |
| Expectation: | Dropdown opens with country list |
| Confusion Score: | 6/10 |
| Status: | FAILED |
| Severity: | P1 |
| F-Score: | 75% |

■ Diagnosis:

Country selector API endpoint not found

■ Recommendations:

1. Update API endpoint path in frontend config
2. Add fallback for missing country data
3. Display user-friendly error message

■ Network Logs:

- GET <https://api.deriv.com/v2/countries> → 404
- GET <https://api.deriv.com/v1/countries> → 200

■ Console Logs:

- [error] Failed to fetch: 404 Not Found

- [warning] Endpoint /v2/countries does not exist
